Forecast for Sunday 17 Jan 2021

Weather: Westerly winds will bring further snow showers across the western ranges while the eastern ranges see brighter, predominantly dry conditions. Showers will merge into a longer period of snowfall by afternoon and spread eastwards, bringing widely whiteout conditions with blizzards. Snow will fall above around 400m through morning, this rising to 700-800m through afternoon.

Chance of cloud free mountain/hill tops above 800m: In west, 40% falling zero. In east, 80% falling 20%.

Visibility: Snow showers occasionally bringing whiteout conditions across the west through morning. Becoming widely limited to a few hundred metres, often less, above modest elevations through afternoon as more persistent snow sets in and spreads to the eastern ranges.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View

Gusts closer to 55mph on highest ground. Be aware of lowering cloud levels and heavy snow spreading from the west through afternoon. Best conditions expected across the more sheltered east.

Forecast for Monday 18 Jan 2021

Weather: Contrasting conditions across the ranges with the south seeing most frequent snow falling to around 700m, while rain, sleet and hail falls below this. Widely poor visibility and near constant, often heavy snowfall at times. Further north, bright or sunny conditions like but the boundary between these weather regimes is uncertain.

Maximum wind: SW 25-30mph, gusting up to 45mph. Easing a little through evening.

Chance of cloud free mountain/hill tops above 800m: 80% north, 30% south.

Visibility: Cloud bases persistent above around 500-700m in the south with whiteout conditions possible at times. Much improved across the north, particularly the Aberdeenshire Hills.

Temperature: **Glens:** 1-2 rising 4C.
At 800m: Minus 2C.
Freezing level: 600m north, 800m south.
